

## Winter/ Spring 2023 Classes at Sertoma Arts Center

### Painting Pets and Animals in Acrylic

Description: This class will demonstrate basic pet portraiture/animal painting in Acrylic. The instructor will demonstrate how to set up a portrait using both realistic and expressive color. Students will work from reference photos. Please come to the first class with a photo you would like to work from, or with an idea in mind for your first painting. You will be guided from start to finish through your painting with individual help and class demonstrations from the instructor. All skill levels welcome! This is a great introduction of how to paint animals!  
Instructed by Amanda Wilson.

## Impressionistic Winter Landscapes with a Palette Knife & Brush

Description: This class will be a great introduction for how to use a palette knife to achieve texture in an impressionistic style of landscape painting. We will be practicing different ways to use the tool to create different textures that build into a scene. We will be painting mountains, water, grasses, plants, palm trees, clouds, skies and more. Students will be taught the basics of impasto painting with Acrylic on Canvas using Gel Mediums to create different textures

in the raised paint. We will touch on the use of color and space and how to achieve depth and space within the painting while also using thick paint application to bring certain objects into the foreground. This is a great class to take if you have already taken an acrylic painting class, and will teach you how to abstract objects just enough to create more interest within your work. Instructor Amanda Wilson will guide you every step of the way and be there to give in class demonstrations as well as one on one assistance. Please bring a 11"x14" or 12"x16" canvas to the first class ready to paint! This course is great for any skill level. Supply list available on Sertoma's webpage. Instructor: Amanda Wilson
